

TK-7160/8160

VHF/UHF FM Mobile Radios

Kenwood's TK-7160/8160 mobiles provide the performance, power and quality for reliable communications in a wide range of mobile applications and environments. Advanced features include a 128-channel/ 128-zone capacity, 5-Tone Signalling, FleetSync® and easy-to-see 13-segment/ 8-character backlit LCD.

NEW CONCEPT DESIGN

Kenwood employed premium industrial design concepts to make the TK-7160/8160 functionally practical, rugged and an attractive piece of equipment to use.

128 CHANNELS / 128 ZONES

The convenient 128-channel / 128-zone capability accommodates virtually any current or future capacity requirement for single or multiple site radio systems.

MIL-STD 810C/D/E/F

The TK-7160/8160 is built to survive the hard knocks and harsh weather environments of many type mobile installations. These mobiles meet or exceed the MIL-STD 810 C, D, E, & F environmental standards including the "drip rain" test.*

* MIL-STD compatibility requires the KMC-35 or KMC-36 microphone.

ENHANCED KENWOOD AUDIO & FRONT MOUNTED SPEAKERS

Equipped with 4W high power front mounted speakers and renowned Kenwood audio technology, the TK-7160/8160 provides loud clear audio even in noisy environments.

ALPHANUMERIC LCD DISPLAY

The backlit LCD with 8-character, 13 segment aliases with and icons provides an easy-to-read channel, function and FleetSync® messaging display day or night.

LONE WORKER

This ingenious feature provides an extra layer of security and safety for individuals who work remotely as well as for those who work in hazardous areas. As long as the buttons are pressed regularly, the radio operates normally; however, if there is a long lapse (programmable), it will sound an alert. In the absence of further response from the user, the TK-7160/8160 will place an emergency call to a predetermined person or group of people.

FleetSync® DIGITAL SIGNALLING

Kenwood's FleetSync® digital signalling system includes PTT ID digital ANI for instant radio call identification and Emergency status for personnel safety. FleetSync® also includes status messaging, selective calling, caller ID display, and stun features. Emergency Calling notifies a dispatcher of personnel in distress by activation of emergency key.

5-TONE SIGNALLING

In addition to FleetSync®, the TK-7160/8160 includes 5-Tone selective calls in 6-different formats, EIA, EEA, CCIR, ZVEI, ZVEI2 and the Kenwood format, and it also can include GPS position data.

SCAN

Multi-channel call monitoring can be customized for users with single/multi-zone scan and delete/ add scan features. Priority Scan automatically checks a primary channel for activity while receiving a call on a non-priority channel. Convenience features such as Priority-channel Stop Tone, Temporary Delete and Revert Channel Display facilitate user-friendly operation and eliminate confusion.

OTHER FEATURES

- GPS Compatible
- Voting
- QT/DQT, DTMF
- Voice Inversion Scrambler
- Programmable Function Keys
- Programmable Channel Spacing
- Embedded Messages
- Ignition Sense Input & Cable Option
- Horn Alert Option (External relay unit required)
- Microsoft Windows® PC Programming & Tuning
- Encryption & ANI Control Capability
- Operator Selectable Tone

Options

■ KES-3 External Speaker

■ KDS-100 Mobile Data Terminal (requires KCT-39 option)

■ KMB-10 Key Lock Adapter

■ KGP-2A GPS Receiver Modem (requires KCT-39 option)

■ KMC-30 Microphone

■ KMC-32

■ KCT-36 3m Extension Cable (for KCT-39)

Connection Cable

■ KCT-39

(16-pin)

KLF-2

■ KGP-2B GPS Controller Modem (requires KCT-39 option)
